

Y08-208 Hydraulic, 3-arm puller with adjustable clamping depth, hydraulic pressure cylinder for pump drive (tractive force up to 10 t) and combi crosshead

DESCRIPTION

The hydraulic, 3-arm puller with adjustable clamping depth, hydraulic pressure cylinder for pump drive and combination crosshead is used to pull particularly large and tight-fitting bearings, gears and discs in all standard sizes for trades, workshops and industry. The hydraulic pressure cylinder achieves a high pulling force. It can be used to loosen any component that sits on a shaft and is freely accessible from the outside. The oscillating puller legs adapt to any installation situation and can be used universally thanks to the adjustable clamping depth. Thanks to the Combination crossbeam, the puller can be used with both 2 and 3-jaw pullers. The 3-arm design guarantees even load distribution and therefore a particularly secure hold on the part to be pulled off.

RANGE OF APPLICATION

For extra large and tightly fitting bearings, gears and pulleys

BENEFIT

- Hydraulic hollow piston cylinder guarantees easy and controlled removal of particularly large and stuck parts with little effort
- Adjustable puller legs for customising the clamping depth thanks to multiple holes in the puller legs
- Oscillating pulling hooks offer a wide range of adjustment options
- Thanks to the combination traverse, the puller can be used for 2-arm and 3-arm pulling
- 3-jaw design ensures even force distribution and enables greater pulling power
- Mobile puller can be used with 2 or 3 arms

OPERATION

- Position the puller leg on the part to be removed from the outside
- Swivel the claws under the component
- Connect the pressure cylinder and hydraulic pump via a hose
- Actuate the hydraulic pump

MASTER DATA

GTIN [EAN]	4021176461774
Country of origin	DE
Case material	Tool steel
Series	Y-208
Net weight [kg]	5,39 kg
Package contents	1 piece
Packaging Act	PAP 21
Global sales capability given	Yes

SPARE PARTS

- YRE-050_Hydraulic pressure cylinders with collar thread
- 206-02-220-S_3 Puller legs (set)
- YCR-400_Quick coupling
