

KS-22-01 Slide hammer sets in a case

APPLICATION IMAGE

DETAIL IMAGE

DESCRIPTION

The 10-piece Slide hammer set in case KS-22-01 is used for extracting bushings and components with threads (dowel pins, feather keys, bolts, etc.) in trade, industry and workshops. The use of a slide hammer is particularly recommended when there is no support surface or it is too sensitive. The ergonomically shaped, solid sliding piece allows the applied force to be optimally transmitted and a strong shock effect to be achieved. This also ensures non-contact and gentle extraction. The thread adapters included in this set can be used for both internal and external threads.

RANGE OF APPLICATION

For extracting bushings as well as components with threads (dowel pins, feather keys, bolts, etc.)

BENEFIT

- Application-orientated compilation for universal use
- Storage in the case makes it easy to keep track of the completeness of the set
- The thread can be clearly identified using the dimensions lasered onto the thread adapters
- The included thread adapters can be used for different thread types and sizes

OPERATION

- Select a suitable threaded insert and mount it on the slide hammer
- Insert the slide hammer into the hole and tighten the clamping nut
- Use the slide hammer with a striking motion to pull out the bolt

MASTER DATA

GTIN [EAN]	4021176924569
Country of origin	DE
Case material	Tool steel
Series	KS-22
Net weight [kg]	2,12 kg
Package contents	1 set
Packaging Act	PAP 21
Global sales capability given	Yes

SPARE PARTS

- 22-0-10_Gliding hammer device with 1 kg impact weight
- GA12-3_Adapter with grub screw
- GA12-4_Adapter with grub screw
- GA12-5_Adapter with grub screw
- GA12-6_Adapter with grub screw
- GA12-8_Adapter with grub screw
- GA12-10_Adapter with grub screw
