

K-600-D Interchangeable pressure piece set

DESCRIPTION

The interchangeable thrust piece set is considered the optimal supplement for KUKKO thrust spindles with interchangeable tips and can be used for any installation position. For individual adaptation to the shaft, the pressure piece is inserted into the spindle. A choice can be made between different pressure pieces (e.g. with a flat or concave bearing surface). The set also includes a 3-part universal thrust piece set for stepped adaptation for hollow shafts as well as a magnetic mini-LED.

RANGE OF APPLICATION

For individual adaptation to the shaft.

BENEFIT

- Any installation position can be covered
- Dual spindle tip for smooth surfaces and centring
- Gentle peeling due to exchangeable tips

OPERATION

MASTER DATA

GTIN	4021176833991
Country of origin	DE
Material	Tool steel
